

Project Orbit

OFFICIAL ROLE SELECTION NOTICE

To: Rohit Kumar Pandit

PRID: PRID_2

Role: Auditor

Dear Rohit Kumar Pandit,

Congratulations! You have been officially ratified as the **Auditor** for Project Orbit. Your expertise in tracking code precision and managing security audits will be vital to the integrity of the Crucible Turbine.

As the Auditor, your core responsibilities include:

- Tracking code precision and ensuring system reliability.
- Conducting regular security audits.
- Managing system logs and documentation.

We look forward to your contributions. Welcome to the team!

To: Khushi Jamwal

PRID: PRID_3

Role: Designer

Dear Khushi Jamwal,

Congratulations! You have been officially ratified as the **Designer** for Project Orbit. Your creative vision will shape the UI layouts and static assets that define the PRID Framework's user experience.

As the Designer, your core responsibilities include:

- Building intuitive and secure UI layouts.
- Creating and managing static project assets.
- Maintaining frontend cleanliness and consistency.

We look forward to your contributions. Welcome to the team!

To: Vansita Rakwal

PRID: PRID_4

Role: Integrator

Dear Vansita Rakwal,

Congratulations! You have been officially ratified as the **Integrator** for Project Orbit. Your role in connecting modules and managing extensions is crucial for the seamless operation of the Crucible Turbine.

As the Integrator, your core responsibilities include:

- Connecting diverse system modules.
- Managing project extensions and dependencies.
- Resolving system conflicts and ensuring compatibility.

We look forward to your contributions. Welcome to the team!

OFFICIAL ROLE SELECTION NOTICE

To: Shravan kumar

PRID: PRID_5

Role: DBA (Database Administrator)

Dear Shravan kumar,

Congratulations! You have been officially ratified as the **DBA** for Project Orbit. Your management of database schemas and data flow will ensure the security and efficiency of our core infrastructure.

As the DBA, your core responsibilities include:

- Designing and maintaining database schemas.
- Managing data flow and integrity.
- Implementing core and database-level security protocols.

We look forward to your contributions. Welcome to the team!
